

## Biochemistry of Intermediary Metabolism

Lecture	Duration
<b>Intermediary Metabolism</b>	
<b>Integration of Metabolism - Introduction and Regulation of Metabolic Pathway</b>	
Integration of Metabolism - Introduction and Regulation of Metabolic Pathway-01	00:16:14
Integration of Metabolism - Introduction and Regulation of Metabolic Pathway-02	00:22:35
<b>Integration of Metabolism - Effect of Insulin and Glucagon on Metabolic Pathway</b>	
Integration of Metabolism - Effect of Insulin and Glucagon on Metabolic Pathway-01	00:15:33
Integration of Metabolism - Effect of Insulin and Glucagon on Metabolic Pathway-02	00:20:29
<b>Integration of Metabolism - Effect of Catecholamines and Glucocorticoid on Metabolic Pathway</b>	
Integration of Metabolism - Effect of Catecholamines and Glucocorticoid on Metabolic Pathway-01	00:20:14
Integration of Metabolism - Effect of Catecholamines and Glucocorticoid on Metabolic Pathway-02	00:16:27
<b>Integration of Metabolism - Metabolic Interconnections and Organ Specialisation</b>	
Integration of Metabolism - Metabolic Interconnections and Organ Specialisation-01	00:15:03
Integration of Metabolism - Metabolic Interconnections and Organ Specialisation-02	00:23:04
<b>Integration of Metabolism - Metabolic Adaptations</b>	
Integration of Metabolism - Metabolic Adaptations-01	00:16:34
Integration of Metabolism - Metabolic Adaptations-02	00:19:11
<b>Overview of Metabolism</b>	
<b>Overview of Metabolism I - Metabolic Pathways</b>	
Overview of Metabolism I - Metabolic Pathways-01	00:19:06
Overview of Metabolism I - Metabolic Pathways-02	00:19:37
<b>Overview of Metabolism II - Regulation of Metabolic Pathways and Bio-energetics</b>	
Overview of Metabolism II - Regulation of Metabolic Pathways and Bio-energetics-01	00:20:42
Overview of Metabolism II - Regulation of Metabolic Pathways and Bio-energetics-02	00:18:23
<b>Starvation</b>	
<b>Starvation-01</b>	00:15:35
<b>Starvation-02</b>	00:19:35
<b>Starvation_Revision</b>	00:04:35
